Group 7

September 21 2017

Meeting Chair: Susan Fayez

1 Agenda

- Get Project Approval

- Discuss Problem Statement

- Assign Group Roles

2 Minutes

- Discussed project topic before approval with Dr. Bokhar.

- Explained Intended project to Dr Bokhar and Chris MacDonald. May run into issues finding appropriate libraries to reimplement the C/C++ project in Java. We will attempt to find similar libraries in Java, but if not we will find a way to work the existing libraries into our implementation.

- Brainstorming for Problem Statement Document. To be formally typed and submitted by Abrar.

- Discussed group roles. Project documents to be brainstormed by all group members and take turns formally typing and submitting. Abrar is team leader, front end coder and git expert. Susan is the scribe and C/C++ expert. Mediha is the Latex and documentation expert as well as in charge of back end Java coding. Development of the actual code will be split equally among team members, with each member being in charge of their particular aspect.

3   Homework

- Abrar: Type and submit Problem Statement document

- Susan: Submit meeting outline

- All: Search for appropriate Java libraries, figure out how to run program from source code, begin taking notes for development plan.
